KEY EXPENDITURE COMPONENTS

BUDGET ESTIMATES 2025

(DRAFT)

Department of National Budget

Ministry of Finance, Planning and Economic Development

February 2025

Key Expenditure Components of the Budget Estimates 2025

This document provides government expenditure estimates for 2025 in terms of expenditure components under each ministry, which has already been presented in Parliament through the Appropriation Bill in accounting format. Further, this is also inline with the Citizen Budget, which has been documented in Section 20 (2) (b) of the Public Finance Management Act No.44 of 2024. This has been prepared by simplifying the above two documents, enabling to have a clear understanding of government expenditure in sector-wise activities coming under each ministry. This document will be amended incorporating the budget proposals, once the Budget Speech -2025 is presented to the Parliament.

The required provisions for the welfare projects and programmes as well as development activities has been provided in preparation of the budget this time, based on the new government's policy statement of “ A Thriving Nation – A Beautiful Life” ensuring each and every citizen of the country will be benefited from government investments.

The values in the Estimates for accounting purposes have been rounded off to the nearest million in rupees and presented for the ease of reference and there may be slight variations between the numbers as a result.

This document is available in the website - <https://www.treasury.gov.lk/web/budget-estimates> and also published in Unicode font for making it accessible to visually impaired people.
